

The European Research Council

ERC Starting and Consolidator Grants Call

Marilena Plesu
Consolidator Grant Call Coordinator
13 May 2024
NCP Belgium

European Research Council

Established by the European Commission

Overview

- ERC and ERC Grant Schemes
 - Eligibility
 - Submission and Evaluation Process (including Novelties in 2024)
 - Your questions
- Tips and Tricks

ERC is part of Horizon Europe

EUR 16 billion
ERC budget in Horizon Europe

17%
of the entire
Horizon Europe budget

About the ERC

Scientific governance

- Independent **Scientific Council** with 22 members including the ERC President, with full authority over strategy
- Supported by a Dedicated Implementation Structure, the **ERC Executive Agency**

Scientific freedom

- Scientific **excellence** as the sole criterion
- Support to the **individual scientist** – *no consortia!*
- No predetermined subjects – “**bottom-up**”
- Support for **frontier research** in **all fields** of science and humanities
- **International peer-review**

Why to apply for ERC grant?

ERC offers independence, recognition & visibility to:

- work on a **research topic of own choice**;
- gain **financial autonomy** for five years;
- negotiate the **best conditions of work** with the host institution;
- attract **excellent team members** and **collaborators** from anywhere in the world;
- **move with the grant** to any place in Europe if desired (“portability of grants”);
- win **additional funding**.

ERC funding schemes

Starting Grant

Size of the grant: up to €1.5 million + up to €1 million
Duration: up to 5 years
2-7 years of experience since completion of their PhD

Consolidator Grant

Size of the grant: up to €2 million + up to €1 million
Duration: up to 5 years
7-12 years of experience since completion of their PhD

Advanced Grant

Size of the grant: up to €2.5 million + up to €1 million
Duration: up to 5 years
Already established research leaders with a
recognised track record of research achievements

ERC funding schemes

Synergy grant

Size of the grant: €10 million + up to €4 million

Duration: up to 6 years

Be composed of 2 to 4 PIs and their research groups (**one PI can be based outside EU/AC**)

Proof of Concept

Size of the grant: lump sum €150 000

Duration: up to 18 months

Demonstrate that the idea funded by the original ERC grant has innovation potential and significant economic or societal benefits

Overview

- ERC and ERC Grant Schemes
- Eligibility
- Submission and Evaluation Process (including Novelties in 2024)
- Tips and Tricks

Preparing your proposal

...for StG and CoG, make sure you are eligible!

1. Reference date for the calculation of the Eligibility window: **1st of January of the year of the Call**
 - StG2025:** 1 January 2018 and 31 December 2022
 - CoG2025:** 1 January 2013 and 31 December 2017
 - *Extensions of eligibility window possible for documented cases*
2. If you previously applied to an ERC call, check **resubmission restrictions**
 - *Indicative submission restrictions for the StG2025 and CoG2025 calls*
- same as in the past
3. Time **commitment on the project:** Min. 50% (StG), 40% (CoG)
4. Minimum 50% of PI **working time in an EU Member State or Associated Country**

Since WP2023

Change in PhD eligibility reference date

➤ New “PhD eligibility reference date” rule:

*The reference date towards the calculation of the eligibility period shall be the **certified date of the successful defence**. Document provided by the awarding institution.*

- Allows for the eligibility window to reflect the *real **academic age*** instead of the “administrative age” of the PI;
- Puts an end to confusion about “award according to national rules” - brings clarity to applicants;
- Most PhD certificates include the defence date;
- If the PhD certificate does not show defence date, the candidate has to ask for written confirmation from the awarding institution.

StG and CoG: Extension of the Eligibility windows

For documented situations occurring before the call deadline

- **Maternity leave:** +18 months for each child born before/after the date of the successful defence of PhD degree;
- **Paternity leave:** documented time taken for each child born before or after the date of the successful defence of PhD degree;
- **Long-term illness** (>90 days for the PI or a close family member) or **national service:** documented amount of leave taken for each incident that occurred after the date of the successful defence of PhD degree;
- **Clinical training:** documented amount of clinical training received **after** the reference date of the 1st eligible degree, **up to a maximum of 4 years**;
- **Natural disaster** and for **seeking asylum**.

Overview

- ERC and ERC Grant Schemes
- Eligibility
- Submission and Evaluation Process (including Novelties in 2024)
- Tips and Tricks

Evaluation panel structure

(2024) Novelties for ERC WP2024

Life Sciences

- LS1 Molecules of Life: Biological Mechanisms, Structures and Functions
- LS2 Integrative Biology: From Genes and Genomes to Systems
- **LS3** Cell Biology, Development, Stem Cells and Regeneration
- LS4 Physiology in Health, Disease and Ageing
- **LS5** Neuroscience and Disorders of the Nervous System
- LS6 Immunity, Infection and Immunotherapy
- LS7 Prevention, Diagnosis and Treatment of Human Diseases
- LS8 Environmental Biology, Ecology and Evolution
- LS9 Biotechnology and Biosystems Engineering

European Research Council
Established by the European Commission

Physical Sciences & Engineering

- PE1 Mathematics
- PE2 Fundamental Constituents of Matter
- PE3 Condensed Matter Physics
- PE4 Physical and Analytical Chemical Sciences
- PE5 Synthetic Chemistry and Materials
- PE6 Computer Science and Informatics
- PE7 Systems and Communication Engineering
- PE8 Products and Processes Engineering
- PE9 Universe Sciences
- PE10 Earth System Science
- PE11 Materials Engineering

Social Sciences and Humanities

- SH1 Individuals, Markets and Organisations
- SH2 Institutions, Governance and Legal Systems
- SH3 The Social World and Its Interactions
- SH4 The Human Mind and Its Complexity
- SH5 Texts and Concepts
- SH6 The Study of the Human Past
- SH7 Human Mobility, Environment, and Space
- **SH8** Studies of Cultures and Arts

Evaluation panel structure (2024)

Panel structure revised – 2024 ERC Panels and panel descriptors available on the [ERC homepage](#):

- Provide **guidance to applicants**;
- Not meant to be a complete scientific classification (***not exhaustive***);
- Panel titles, subtitles, descriptors **do not reflect priorities**;
- **Any topic/field** is equally welcome, whether mentioned in panel structure or not;
- The PI can flag one **"Secondary Review Panel"**. If proposal is across panels: reviewers from both panels used. Explain why proposal is "cross-panel" in Part B1!

Rumour: Choose the panel "strategically", in order to increase chances of success

NOT true: The budget is distributed among the scientific panels as a function of demand → success rate is equal amongst panels → **choose the Panel that is right for your proposal!**

Summary of Novelties – ERC Work Programme 2024

FOCUS ON RESEARCH

- Ground-breaking
- Ambitious
- Feasible

Assessment

- Up to 10 research outputs
- Short narrative
- Career breaks, diverse paths

No prescriptive PI profiles

- Up to 44 proposals in step 2 (exc. SyG)
- 'A not invited' can reapply next year

Evaluation Procedure

- AdG only: One amount payment based on the work done (not success)
- Additional funding and portability

Lump Sum Pilot

- New Panel – SH8
- Changes in description of LS3/LS5 panels

Panels

2024 Calls - Research Assessment

- Evaluation is **primarily** focused on the **proposed research project**
 - Ground-breaking nature, ambition, and potential impact
 - Feasibility of the scientific approach
- Intellectual capacity, creativity, and commitment of the PI also evaluated, with a focus on the extent to which the PI has the required scientific expertise and capacity to successfully execute the project

ERC President, Prof. Maria Leptin, explains the background and rationale to the recent changes in the evaluation process of ERC grant proposals: [Evaluation of research proposals: The why and what of the ERC's recent changes | ERC \(europa.eu\)](#)

Proposal Structure

(new Part B1 and B2 templates; Funding ID is now included in Part B2)

- **Part A:** Administrative forms and Proposal Budget
- **Part B1** – Synopsis (5 pages) and CV+Track Record (4 pages)
- **Part B2** - Scientific proposal (14 pages)
 - State-of-the-art and objectives
 - Methodology
 - Funding ID (not to assess the PI but potential funding overlap at GAP stage)
- **Host Institution support letter**
- **PhD certificate** (StG and CoG)

Annexes: *Extension request documents in 1 pdf, including cover page; ethics docs, etc.*

New CV and Track Record – 2024 Calls

No prescriptive Principal Investigator profiles

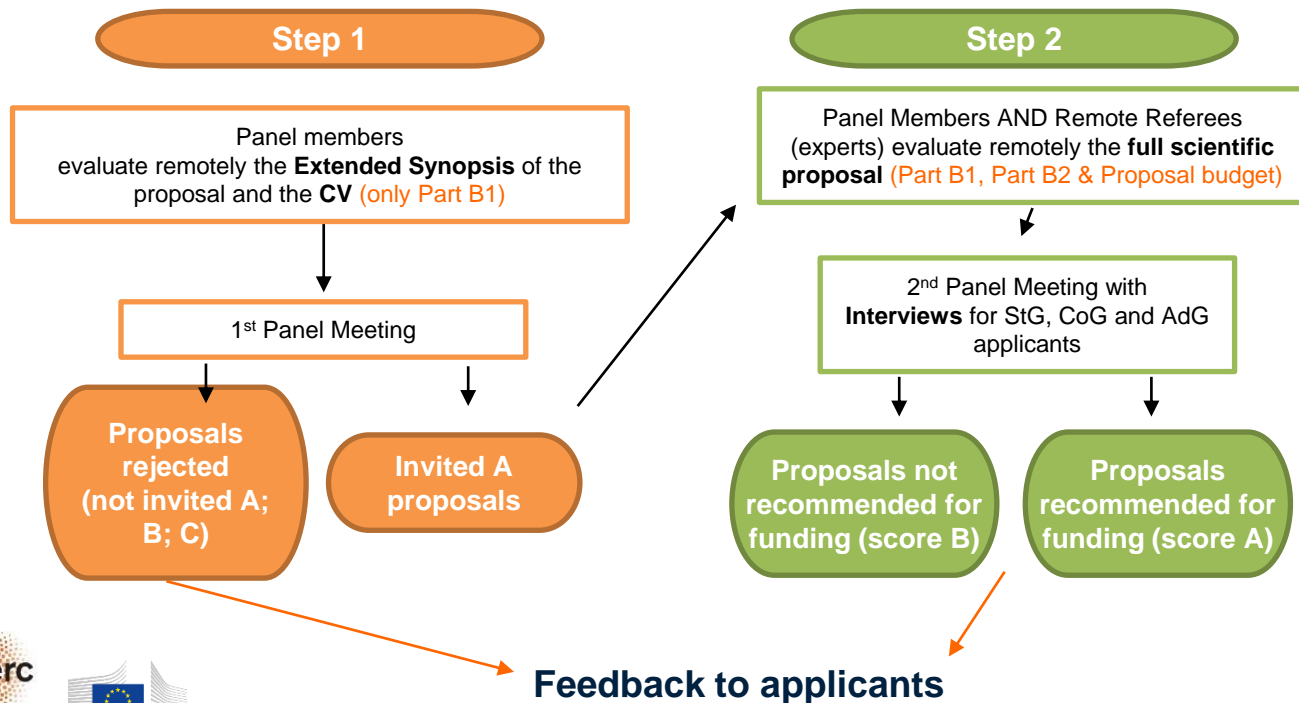

- **Personal details:** education, employment
- **Research outputs** (≤ 10):
 - demonstrating advancement in the field
 - emphasis on more recent achievements
 - short narrative on significance of achievements
- **Peer recognition:** prizes, fellowships, academy membership, etc.
- **Additional information:**
 - career breaks, diverse career paths, life events
 - other contributions to research community

Evaluation procedure

- Proposals **continue to be evaluated by peer review panels** composed of leading scientists and scholars using sole criterion of scientific excellence
- Cap on the number of proposals passing to step 2 in Starting, Consolidator and Advanced Grants calls: **at most 44 proposals can be passed to step 2** of the evaluation.
- New scoring introduced at step 1: A not invited- *‘A not invited is of excellent quality but not ranked sufficiently high to pass to step 2 of the evaluation’*
 - A candidate whose proposal is scored A at step 1 of the evaluation, but not taken to interview, will be free to submit a proposal in the following year’s calls.

Evaluation Process (StG, CoG & AdG)

For individuals calls: a single submission but a two-step evaluation

3 Domains /
28 Panels

13-18
Panel

Overview

- ERC and ERC Grant Schemes
- Eligibility
- Submission and Evaluation Process (including Novelties in 2024)
- Tips and Tricks

ERC-funded projects by country of Host Institution

ERC 2007-2023 Signed grants May 2024

ERC Funded Projects in Belgium

H2020 and Horizon Europe (signed so far.....)

Contrary to what you may think

- The **budget** is distributed among the scientific panels as a function of demand;
- The **panel descriptors** do not represent ERC scientific priorities;
- **Publication record** is not decisive in selection decisions
- The **Host Institution** is not an evaluation criterion;
- The **success rate** is not linked to academic age.

Submissions by years since PhD

STG 2021-2024

COG 2020-2024

Shall I apply now or wait another year?

STG and COG 2023 - Results of step 2

STG 2023

COG 2023

Excellence

is the sole evaluation criterion

Excellence of the Research Project

- Ground breaking nature
- Ambition, scientific impact
- Scientific Approach

Excellence of the Principal Investigator

- Intellectual capacity
- Creativity
- Commitment

Five main tips, but no tricks!

1. Consult **call documents** (Work Programme, Information for Applicants);
2. **Register** early on the F&T Portal;
3. Have your **documentation ready**;
4. Contact the ERCEA and **ask all your questions** well ahead of the submission deadline:
ERC-2025-STG-APPLICANTS@ec.europa.eu
ERC-2025-COG-APPLICANTS@ec.europa.eu
5. Get the **written consent of your collaborators** before the submission deadline (a simple email exchange is OK).

Preparing your proposal

In Step 1: Panel members see only **Part B1** of the proposal (prepare it accordingly!)

Part B1: Find the right balance

- ✓ Innovative? Beyond state-of-art?
Realistic/feasible?
- ✓ Outline state of play (incl. competition)
- ✓ Goals realistic? Think about risk mitigation
- ✓ Be concise & clear
(also for generalists)
- ✓ Feasibility (scientific approach)

In Step 2: Part B1 and B2 and **Budget section** are evaluated by Panel Members & Remote Referees

Part B2: Fill in the details

- ✓ No verbatim repetition of synopsis
- ✓ Detailed state-of-art
- ✓ Extensive methodology and work plan
- ✓ Provide risk mitigation strategies
- ✓ Explain involvement of team members
- ✓ Justify requested resources - Panels have to ensure that the requested resources are reasonable and well justified.

I have been invited for an interview .. now what?

- Have **clear and representative** slides and focus on **SCIENCE!** Don't try to make a business presentation – you are talking to scientists.
 - Get panel interested in **YOUR ideas** & proposal;
 - Present & defend YOUR ideas (panels want to see that these are your ideas);
 - Don't over-explain your CV!
- **Anticipate questions**
- Know the **details of your proposal** and methods, as well as your **research area** – who are your main competitors/collaborators?
- **Practice** thoroughly, several (many?) times; **Keep the time**; typically a 5-10 minute presentation followed by 15-20 minutes of questions.

Key points:

- Writing is hard and requires time: **devote plenty of time** to the “job”;
- Writing a proposal = **rewriting** it many times;
- **Proofread** and/or secondary read by a friend, colleague, family member (avoid: spelling mistakes, grammatical slips, exceeding word and page limits);
- **Do not work right up to the deadline:** it can undo weeks/months of hard work (e.g., submission of early draft, connection failure, IT malfunctions);
- A submitted proposal can be revised until the call deadline by **submitting a new version and overwriting** the previous one.

Key points:

- The **Host Institution** is not an evaluation criterion, only the **excellence** of the proposal and the applicant;
- Proposals **shorter than five years** are welcome. The content of the proposed research determines its budget (*max. award is reduced pro rata temporis for projects of shorter duration*);
- Do not include unnecessary partners and collaborators; it is **not a "consortium"**;
- **Publication record is not decisive** in funding decisions;
- The **success rate is not linked to academic age**.

Key points:

- Be ambitious and "daring", **think big**;
- **Grab interest** and attention of reviewers;
- Remember that **Part B1 will be seen by "generalists"** (panel members);
- If you make it to Step 2, reviewers (including specialists – external reviewers) see both B1 and B2, so **do not repeat/duplicate part B1 in part B2**.

Anyone from anywhere in the world can apply

Opportunities for researchers outside EU/Associated Countries:

- **Additional “start-up” funding** for researchers moving to Europe (€ 1 Mio irrespective of grant scheme);
- Grantees can **keep affiliation with home institute outside Europe** (“significant part” of work time in Europe: at least 50%);
- **Team members can be based outside Europe;**
- Grantees can **move within Europe with the grant.**

Some final messages

- Don't exclude yourself from participating in ERC calls;
- If you have an idea that you think will make a significant change in your field of research or some other area, consider writing it down and apply to ERC;
- Take risks, explain your project's high scientific impact if you reach your aims, and provide evidence that you can do it;
- Consider the balance between addressing generalists and specialists, and the difference between part B1 and part B2 of the written proposal;
- If you fail, try again! Gain experience from evaluation. Panel feedback is useful and resubmissions have higher success rate (typically 1.5 times higher).

Be ready! Be informed!

- Consult the **ERC Work Programme**, the **Information for Applicants** and the **Guide for Peer Reviewers**;
- Look at **funded projects in your field** (search tool on ERC website), testimonials, tutorials ([ERC homepage](#)).
